Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-23, 25, 26, and 29, drawn to a specific amino acid particle, powder made thereof, and method of making said powder.

Group II, claim(s) 24, 27, 28, 30-33, drawn to a method of producing amino acid particles.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Since the claims of Group II do not refer back to the specific amino acid particles of claims 1-6, the instant application contains two different inventions: One directed to specific amino acid particles used in an inhalable powder, and the second which is directed to amino acid particles in general.

A telephone call was made to Robert J. Paradiso on May 29, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos A. Azpuru whose telephone number is 703/308-0237. The examiner can normally be reached on Tu-Fri, 6:30 am - 5:00 pm.
